

Grow your own FLOWER!

Create a FLOWER and build a WordThing just like our WordFriends! Find a piece of cardboard or white paper. Assist children as they cut the FLOWER stem and F, L, O, W, E and R petal letters (along the dotted lines). Using the image to the left as a guide, help children glue each letter to the blank page. As you work with the children, practice saying the names and sounds of the letters in the word FLOWER.
